

FIBROMYALGIA

A woman came for ministry Monday night 4.12.13. She had been suffering with lots of pain for years. The doctors had diagnosed it as Fibromyalgia and were treating it that way even though the symptoms were not exactly right. We looked up Henry Wright's 7000 project to see what the possible spiritual roots might be for Fibromyalgia. As we asked questions there were parts of the possible roots that seemed to ring true. Rejection, lack of covering by her husband (ex) and drivenness. Through repentance and forgiveness, declaring the creative miracle, creative healing declarations included in the 7000 project information and speaking to her DNA commanding it to adjust to normal, to original creation... the pain left and she began to tingle. God has given us a great tool to use to release healing and restoration for those who are coming for ministry. As we look at this healing Monday night, I am thinking, "This is normal Christianity 101 as lived out by Jesus Christ in us. When illness has gone beyond the broken heart and demons to enter the DNA, there is hope."

What kind of miracle do you need? Plan to come this Monday night at 5.30 pm in order to receive the miracle the God has for you.
