

Advanced Training

Next Monday night at 6.30 or 6.45 pm we will continue a new series of advanced teaching on "How the Gifts of the Spirit function in deliverance" by John Hauser. We heard about "Authority" last week and will be hearing about "The Power of the Blood of the Lamb" this week. These are amazing gifts we can learn to function as we minister. We will have dvd's available; later, cd's.

Testimonies of Deliverance 4.21.14

A few weeks ago on Monday, parents came with concerns about their 5 year old boy who had been diagnosed with a brain tumor and was having seizures. From experience, we usually suggest in the case of where a child is having problems that it is best that at least one parent, ideally both, come for deliverance before we pray for the child. There are usually always generational curses that need to be broken and other doors that need to be closed. Since a child is under the spiritual authority (probably up to age 18 or so) of the parents sometimes the child is set free without ever having direct ministry. I have a chapter in my book (Doing the Supernatural Works of Jesus) on ministering to children.

I came to Deliverance Ministries to make my wife happy and to learn how to have better relationships. I was also concerned about my 5 year old boy, seizures and a brain tumor. I have gone to church all of my life; however, I did not have a saving knowledge of Jesus. As I listened to the introduction and went through the door closing prayer I was most interested in seeing my son healed. When I was paired up with the minister, the first thing that we settled was my salvation prayer which opened up a whole new world to me. My wife received ministry that same evening. Everett Cox had highly recommended that both of us come for ministry because of our concerns for our son's healing. My wife brought our son to Everett's office a couple days later. When she took him to the doctor a few days after that, he was most encouraged to see that the tumor had shrunk to the size of a cyst. I am trusting God that it will completely disappear in the next few days.

The Doctor now reports the tumor has shrunk to a "cyst" size and there have not been any more seizures. Praise God...that is our Jesus.

A woman came for ministry because she was concerned about possible root causes for her son's brain tumor. We realized that it could be related to her Dad's involvement with Freemasonry and her mother's membership with Eastern Star. So, we spent a lot of time going through the renunciation of Freemasonry (possibly 30 minutes) and there seemed to be a lot of relief. We are trusting God for complete healing after breaking all generational curses that may be affecting this little boy.

The mother brought the child to the office for prayer the following Wednesday and I did ministry of some simple deliverance and rebuked the tumor and the seizures. He did have some burps. However, I told the mother I really felt their son was healed that Monday evening when she and her husband received deliverance. Both parents had some generational Free Masonry that they renounced.
